

## A MESSAGE FROM THE PRESIDENT

---

*"ICU: Hip-Hop's Guardians" by Steve B.*

I want to take a moment to give respect and appreciation to every Hip-Hop head the world over. With you, Ill Crew Universal is fulfilling its destiny. We are Hip-Hop's guardians. Because of us, Ill Crew University will preserve our history as written by our people. Because of us, the notion of progressive organization within the Hip-Hop community will no longer be so elusive a concept. Because of us, Unity and "Increasing the Peace" will have a tangible vehicle. Because of us, balance will be restored to the culture. Because of us, Hip-Hop may PROPERLY unite more minds across the globe in this dark and unstable chapter of world history.

We are revolutionaries armed with the knowledge of business sense and political savvy -- a knowledge once exclusively held by those whom history shall undeniably record as our enemies. We are hyped Hip-Hop kids grown, with real purpose and valid passions. We are the living legacies of noble causes from yesteryear. We are the SOLUTION to 30 years of rap lyrics addressing the problems. We are a strong and shining rainbow of people determined to carve our place in history and in turn protect the only culture that makes sense to us: **Hip-Hop**.

Whether our children are to replace our efforts with something all their own, or if Hip-Hop is to thrive as we now preserve it, we are historian-warriors and our existence will be embedded in Hip-Hop's quantum signature for eons upon eons.

We are Ill Crew Universal -- Keepers of the lost vibe and soldiers of the culture!

**PEACE • PASSION • PURPOSE • POWER TO THE PEOPLE & ICU!!!**

Steve B.

President of Ill Crew Universal
